

Swiss Trademark Applications

For filing a Swiss trademark application we need the following information and documents:

- **Applicant** (full name and address)
- **Mark**, if the mark is a script or contains graphic elements, we also need a picture of the mark in electronic form, preferably as a jpg file
- **List of the products and services** for which the mark should be protected

We do not need a Power of Attorney.

Before filing a trademark application we strongly recommend to conduct a search for prior identical or similar marks. Please contact us to discuss the best way to conduct this search.
